

PRESS RELEASE

AREVA signs several fuel supply contracts in Germany

Paris, July 12, 2012

AREVA has signed three contracts with the German utilities RWE¹ and EnBW² for the supply of fuel assemblies.

The first two contracts signed with RWE cover the manufacture and the supply of ATRIUMTM and HTPTM ³ fuel assemblies, respectively for Gundremmingen (Bavaria) and Emsland (Lower Saxony) nuclear power plants, until late 2015.

AREVA has also concluded a contract with EnBW regarding the manufacture and the delivery of HTPTM fuel assemblies for the reactor 2 of Philippsburg (Baden-Württemberg) nuclear power plant, between 2014 and 2017.

These fuel assemblies will be manufactured by AREVA on its Lingen site located in Germany.

Stefan vom Scheidt, AREVA Germany Managing Director, declared: "these contracts are a new evidence of the historic relationship forged between AREVA and its German customers. They provide AREVA with a clearer picture of its production schedule and confirm its leading position in nuclear fuel delivery".

¹ RWE: Rheinisch Westfälisches Elektrizitätswerk

² EnBW: Energie Baden - Württemberg

³ ATRIUMTM: fuel assembly supplied by AREVA to utilities operating the BWR reactors worldwide.
HTPTM: one of the designs of fuel assemblies supplied by AREVA to utilities operating the PWR reactors worldwide.

MORE ABOUT

AREVA supplies solutions for power generation with less carbon. Its expertise and unwavering insistence on safety, security, transparency and ethics are setting the standard, and its responsible development is anchored in a process of continuous improvement.

Ranked first in the global nuclear power industry, AREVA's unique integrated offering to utilities covers every stage of the fuel cycle, nuclear reactor design and construction, and related services. The group is also expanding its operations to renewable energies – wind, solar, bioenergies, hydrogen and storage – to be one of the leaders in this sector worldwide.

With these two major offers, AREVA's 48,000 employees are helping to supply ever safer, cleaner and more economical energy to the greatest number of people.
