

Special Steel Solutions – Top quality worldwide

The SCHMOLZ + BICKENBACH GROUP at wire 2014

Whether drive shaft, rail fastening systems or automotive trim - the SCHMOLZ + BICKENBACH GROUP at wire 2014 is presenting a number of components made of their special steel solutions. At stand A16 in hall 17, seven European production companies are showcasing their new and ongoing developments as well as their range of service and prefabrication options. Steel specialists from the international GROUP will also be introducing current topics in materials technology to interested fair visitors in more than 40 special lectures.

The focus of the SCHMOLZ + BICKENBACH GROUP at wire is the competence of the group's own production plants. In keeping with the group's motto at the fair "Steel and Partnership", the material specialists develop the best steel solution for every potential application together with customers. Further highlights at the fair are new special steel solutions with improved cutting properties, new welding wire for exhaust pipes, a new production solution for cold forming as well as a new special steel for components subjected to dynamic loads. Other material solutions within the group's product portfolio are presented by Deutsche Edelstahlwerke, Ugitech, Swiss Steel and Sprint Metal as well as by Steeltec AG, SCHMOLZ + BICKENBACH Blankstahl GmbH and Boxholm Stål AB for the S+B Bright Bar segment. A "product street" introduces fair visitors to the stand to a wide range of applications incorporating the special steels of the SCHMOLZ + BICKENBACH GROUP. Daily lectures on ongoing developments of steel products and material concepts round off the international steel group's information offerings at wire in Düsseldorf.

SCHMOLZ + BICKENBACH GROUP

The highest product quality, on-time delivery and absolute reliability are the principles the SCHMOLZ + BICKENBACH GROUP adheres to not just in production, but also in their global sales and services.
