Filcon Filters, one of the leading liquid filtration companies in South Africa, has signed a distribution agreement with Jonell EurAsia BV of the Netherlands to market its products in southern Africa. Jonell manufactures its own innovative cartridges as well as over 40 000 replacement OEM (Original Equipment Manufacturers) cartridges for the petro chemical, oil & gas and power generation industries ...replacements for all the famous brand names such as Amazon, Baldwin, Cuno, Domnick Hunter, Donaldson, Facet, Faudi, Pall, Parker, PECO and Velcon, as well as over 200 other brands.

Jonell makes the claim that they provide "**t_h_e_h_i_g_h_e_s_t_**
q_u_a_l_i_t_y_f_i_l_t_r_a_t_i_o_n_p_r_o_d_u_c_t_s_

i_n_t_h_e_i_n_d_u_s_t_r_y_." Small wonder when consideration is taken of their fully automated production process to ISO 9001:2008 standards at their world-class production facility in Breckenridge, Texas, coupled with the holding of a large stock in its warehouse in the Netherlands. Satisfied customers amongst others include BASF, BP, Chevron, Exxon Mobil, Petrobras, Saudi Aramco, Shell and Total.

Jonell take pride in providing the fastest product delivery times in the filtration industry. By constantly growing their facility and updating their industry leading production capability they aggressively strive to

preserve this status. In addition to large production capacity, Jonell EurAsia is increasing stock levels for the European, Asian and southern African markets and has invested in custom designed software which automatically tracks stock levels real time ensuring that minimum levels are consistently maintained.

Jonell has built an advanced laboratory and research facility allowing them to conduct extensive filter development and evaluation. They maintain a very close association with their material and component suppliers to ensure that they benefit from the latest in filter media technology which is incorporated into their ongoing product development programme.

Filcon Filters was established in June 2000 and has offices in both Johannesburg and Cape Town. In addition to representing a number of international filtration product manufacturers, Filcon Filters has a wide range of filtration products manufactured to its design in Johannesburg. This range includes the Dirt Gobbla (a centrifugal separator), back flushing automatic strainers, in line basket strainers, purge strainers, and bag & cartridge housings. However, Filcon Filters prides itself in the number of years of filtration experience that the technical members have which enables the company to provide the clearest solutions to filtration needs and problems.
