

## PRESS RELEASE

### DÉCOR MECHANICS - BESPOKE DÉCOR WAITING IN THE WINGS

The prestigious ANN7 South African of The Year 2014 (SATY), an event proudly supplied by Decor Mechanics, will be taking place on the (insert date).

Decor Mechanics has been instrumental in starting the journey that has created one of the largest fabric banners Sandton Convention Centre has seen; spanning a whopping total of thirty six meters and standing proudly at two and a half meters.

In keeping with the true spirit of celebrating twenty years of democracy, bespoke décor and styling has been located and brought in for the event. While over 100 000 stems of fresh flowers and exclusive linen will dress the tables, thought has been given to all aspects of decor, ensuring a unique event. Owner Nonhlanhla Nxumalo and Chantelle De Hahn, décor stylist, mention that, "After two full months conceptualising this event and several mock-ups, we have finally created a vision to ensure a truly South African event for both nominees and guests."

The event highlights the symbolic meaning of the immense, enduring strength of its nominees and their nurturing energies. South Africa's natural resources of gold and platinum are the foundation for the colour palette at the event. The event hosts a lounge area to seat one hundred and fifty guests and a specialised raised table seating platform to host a further seven hundred and fifty guests.

An event surely not to be missed.

The awards night will be broadcast live on ANN7 DSTV Channel 405 at 7PM on Saturday 6th September 2014.
