

ERS NETWORKS MOVES TO BIGGER CUSTOMIZED PREMISES

Specialist in RF and GPRS network products and systems, ERS Networks, relocated to new premises in Kyalami Business Park in November. The company held an open day for clients and suppliers to tour the new customized 550sq m manufacturing and office facility and to showcase its range of services.

Some 50 people from mines, municipalities and alarm companies attended. Frank Fowles presented a company overview, followed by a demonstration of the recently-introduced powerful GPRS-based end-to-end solution including the ERS 48Z Hybrid Control Panel and fully integrated alarm system. New, innovative products in the pipeline and in advanced stages of design were also discussed.

ERS Networks' new address is 58 Kyalami Boulevard, in Kyalami Business Park. The contact number remains the same at 010 593 4555.
