Bearings International Supplies Premium Brand Products & Services to RSA Harbours

Bearings International is a solutions provider of premium brand products and value added services to meet various cargo-handling applications at seven of South Africa's harbours.

"Bearings International is positioned as a solutions partner due to our ability to offer customers a complete bumper-to-bumper offering," says Ricky Williams, Sales Support - Bearings International. "We pride ourselves on being a market leading company with a customer-focused team that delivers top quality products and excellent service. Because we sell solutions and not just products, our after-sales services does not stop at parts supply. Our highly trained team of experts provides technical support, maintenance, condition monitoring and advice on technically related problems."

"The strategic location of six of our branches within Bearing International's more than 50-strong branch network situated in Richards Bay, Durban, Port Elizabeth, East London (one of our distributors), Cape Town and Saldanha Bay, enables us to offer quick turnaround support to meet the various product and service requirements of our country's harbours."
