

## **Hilti HIT HY-170: the multi-base material mortar for day to day fastenings**

**Hilti introduces the new HIT HY-170 injection mortar system solution featuring the HDE dispenser.**

**South Africa, April, 2015 –** The new HIT HY-170 mortar from Hilti is the ideal solution for day to day fastenings. This truly versatile, VOC-free mortar offers unparalleled reliability for multi-base materials and offers a wide range of working temperatures. Created with high health and safety standards in mind together with ETA approved performance, Hilti HIT HY-170 is the mortar of choice for maximum safety

### **Approved performance for multi-base materials.**

When fastening design is not required, Hilti's HIT HY-170 system is the optimal choice for safe, easy and reliable fastenings. The HIT HY-170 system is approved for cracked and non-cracked concrete with standard elements and two temperature ranges according to ETAG 001 part 5. In addition, the system is approved for hollow and solid masonry under ETAG 029. From fastening metal staircases, railing, canopies or pipes to concrete, to fastening to solid or hollow masonry, HIT HY-170 easily and reliably dispenses in all application directions and offers unmatched versatility.

### **One system. Endless possibilities...**

Hilti's comprehensive portfolio of dispensers, rods, and masonry accessories work perfectly together with the HIT HY-170 as an unmatched system solution that delivers flawless fastenings with minimal mortar waste.

**...featuring the unmatched Hilti dispenser platform.**

Fast, effortless and precise dosing is made possible with the Hilti HDE 500-A cordless adhesive dispenser. Set the amount of adhesive with an easy adjustable dosing function. A swivel-and-snap design allows users to change cartridges without having to put the tool down.
