Floor space added at Fastener Fair Italy to meet exhibitor demand

Continuing strong demand for stands at next year's Fastener Fair Italy in Milan has led organisers Mack Brooks Exhibitions to open an expansion area to meet further requests from companies wishing to take part in the event.

Many of the fastener and fixing industry's top names have already guaranteed their presence at the show, securing their preferred stand locations. The additional exhibition space will enable even more companies to join this key showcase for producers and distributors of fastener and fixing products and technologies in one of the sector's major markets.

Industry leaders

Taking place at MiCo – Milano Congressi from 28-29 September 2016, Fastener Fair Italy has already attracted leading domestic and foreign firms.

Among prominent Italian companies will be cold and warm forming technologies specialist Sacma Limbiate, bolts and screws distributor Ambrovit, Marposh Italia, focusing on precision equipment for measurement and control in the production environment, and rivets manufacturer Bralo Italia.

Industrial automation specialist DFV Automazioni, Italbolt Inox Service, supplier of stainless steel fasteners, and forming machinery supplier Carlo Salvi will also be exhibiting, all underlining the diversity of products and services to be displayed.

Foreign companies are signing up for Fastener Fair Italy too. Well known names include Fastbolt, which supplies European distributors with eight product groups ranging from high tensile bolts and setscrews to construction fixings, and Lederer, leading German-based supplier of stainless steel fasteners.

Joining them will be NOF Metal Coatings Europe from France, German-based production

machinery monitoring systems experts Schwer + Kopka GmbH (Süd) and the UK firm Lancaster Fastener Co, distributor of small diameter industrial threaded fasteners.

Exhibition Director Olivia Griscelli said: "The level of demand that has led us to make more exhibition space available a year ahead of this event reflects the industry's view of the importance of Italy's fastener and fixing market. It also confirms the reputation of the Fastener Fair brand as a highly effective showcase for the industry. The very strong support we are experiencing for Fastener Fair Italy sets the scene for what we believe will be a highly successful show."

Worldwide exhibitions

Fastener Fair Italy is organised by Mack Brooks Exhibitions Ltd. It is part of the worldwide series of Fastener Fair exhibitions for the fastener and fixings industry. These include Fastener Fair India, Fastener Fair Turkey, Fastener Fair Mexico, Fastener Fair Russia and the flagship event Fastener Fair Stuttgart, Europe's leading international trade show for this sector.

Additional information on Fastener Fair Italy 2016, including details of exhibition stand options, are available on the show website www.fastenerfairitaly.com
