

## PRESS RELEASE

Hausmening / Amstetten – February 16<sup>th</sup> 2016

### **Internorm awards LiSEC with the „Supplier Award 2015“**

With the annual awarding of the „Internorm Supplier Awards“, Europe’s leading window brand Internorm has been honoring supply partners for outstanding performances for more than 25 years. The „Internorm Supplier Awards 2015“ were awarded in the three categories „Product components“, „Investment goods“ and „Service“ as part of the festivities on the occasion of the 85-year anniversary of Internorm in Vienna on February 4<sup>th</sup> 2016. The award in the category „Investment goods“ was awarded to LiSEC Austria GmbH from Hausmening.

„LiSEC has delivered a top performance in our major investment project tempering furnace. Apart from the best possible support and the absolute adherence to delivery dates we would like to emphasize that LiSEC has not only complied with the agreed upon performance data but has significantly exceeded them“, this is how the Internorm purchasing manager Helmut Freynhofer justifies the decision of the jury. „Internorm and LiSEC have been enjoying an intensive cooperative partnership already for more than 30 years. In the realization and commissioning phase of our tempering furnace, LiSEC has once again proven that the seemingly impossible has yet become possible“, adds the co-owner of Internorm, Christian Klinger.

With the commissioning of an own plant for the production of tempered safety glass at the Traun site, Internorm has further enhanced its manufacturing expertise and at the same time the independence from suppliers in 2015. „Apart from the profile extrusion and the production of insulating glass, the production of tempered safety glass is now almost completely also in our hands. With our own tempering plant, we are in the perfect position to make tempered safety glass the standard for our products and to provide for a still greater safety already in the basic configuration“, says Klinger.

Klaus Preyler, sales director and responsible for Internorm: „Internorm has set the bar very high for suppliers. LiSEC has gladly accepted the challenge and is therefore able to improve further together with Internorm. This award proves that we are doing this successfully.“

#### **Internorm – Europe’s No. 1 window brand**

Internorm is the largest internationally operating window brand in Europe and an employer for 1.800 employees (full-time equivalent). More than 22.5 million window units and doors –100 percent „Made in Austria“ – have left the three production facilities in Traun, Sarleinsbach and Lannach up to now. From the date of founding of the plastic window up to today’s wood/aluminum, high-tech- and high-design innovations: Internorm sets standards all over Europe. Together with approximately 1300 sales partners in 22 countries the company is further expanding its market position in Europe. Apart from window and door systems, the product range also includes sun and insect protection systems.

#### **LiSEC – best in glass processing**

LiSEC based in Hausmening/Amstetten is a globally active group, which has been offering innovative individual and overall solutions in the field of processing and refining of flat glass for more than 50 years. LiSEC’s service portfolio comprises machines, automation solutions and services. In 2014, the group with its approximately 1400 employees and more than 20 locations generated an aggregate turnover of about 220 million Euros at an export rate of more than 90 percent. LiSEC develops and produces glass cutting and sorting systems, individual components and entire production lines for the production of insulating and laminated glass as well as machines for the processing of glass edges and tempering systems. With a reliable technology and intelligent automation solutions, LiSEC sets standards in terms of quality and technology and makes a substantial contribution to the success of its customers.
