FOR IMMEDIATE PUBLICATION  
01 July 2016

## **A walk in the park with Wacker Neuson's landscaping solutions**

Wacker Neuson offers a wide range of equipment solutions. Products are ideally suited for a vast variety of landscaping applications, such as horticulture and creating and maintaining parks and green spaces in public or private and residential developments.

The Wacker Neuson ET20 excavator offers the perfect solution for landscaping applications including, site clearing and demolition, ground levelling, trench digging for irrigation and material handling. This tracked machine is easy to manoeuvre in small confined spaces and offers a host of features including a quick-hitch system, a variety of attachments as well as a unique Vertical Digging System (VDS), allowing the operator to work comfortably on uneven ground.

Other solutions include soil compaction, paving plates, demolition machines, dumpers and compact wheel loaders. The products and services meet the demands of landscaping professional's requirements and Wacker Neuson offers – all it takes!

### **Wacker Neuson:**

Wacker Neuson – all it takes! Wacker Neuson makes this promise to customers world-wide with a comprehensive product range of construction and compact equipment, spare parts and services rendered. Among other things, the product range includes internal and external vibrators for concrete compaction, rammers, vibratory plates and rollers for soil compaction, demolition and cutting equipment, light towers and generators, heaters and ventilation equipment, as well as excavators, wheel loaders, telehandlers, skid steer loaders and dumpers in the field of compact construction equipment. Wacker Neuson has always owed its leading market position to unconditional customer orientation as well as the reliability and power of innovation of its products. With its own sales and service organizations in more than 35 countries, 9 international production locations and numerous partner locations for sales and service, Wacker Neuson has a broad presence. In addition, Wacker Neuson offers services rendered that meet the diverse requirements of its customers. Companies from the main construction industry, gardening and landscaping, municipalities and industry among other sectors therefore rely on the innovative solutions of Wacker Neuson. The brand is supported by the Wacker Neuson Group, a corporation with more than 4,600 employees and a turnover of EUR 1.38 billion in 2015.
