

Adapt IT partner, Solver, Named in Gartner's 2016 Magic Quadrant

Adapt IT, a provider of specialised Information Technology (IT) software solutions and services, including integrated Business Intelligence (BI) solutions, has announced that Solver, Inc., its partner and global leader has made Gartner's Magic Quadrant for the third consecutive year for Corporate Performance Management.

Gartner Magic Quadrants are a culmination of research in a specific market, giving a wide-angle view of how well technology providers execute against their vision.

Solver, Inc. is a global leader in Business Intelligence for all Enterprise Resource Planning (ERP) systems, including Microsoft Dynamics, Sage, SAP Business One, Acumatica, and Intacct.

Amanda Dambuza, Financial Services Executive at Adapt IT, says the company is delighted that once again one of its partner solutions is the recipient of such an important accolade. "This affirms our commitment and ability to provide the very best solutions to our clients, something we will continue to do as an innovative IT services and specialised solutions provider," she says.

Adapt IT has been providing BI solutions for over 14 years, enabling clients to better manage business insights across their organisation. "Together with our strategic technology partners, including Solver, we have cemented a solid reputation and become a trusted advisor to South Africa's leading businesses across a wide range of industries," Dambuza explains.

"We're excited and honoured to be recognised by Gartner for the third year in a row in this elite group of corporate performance management (CPM) solutions, said Mike Applegate, Solver CTO. "As we continue our global expansion, we are accelerating our product vision of BI360. Lead by our outstanding partners, the advanced reporting, planning and dashboard capabilities of BI360 continue to enable information workers access to meaningful data, to make better decisions. We have many exciting announcements planned for our annual user conference later this year, which will further strengthen our leadership as the premiere CPM solution."

Together with its technology partners, Adapt IT's BI Solutions aim to

help clients draw meaningful and actionable insights from their operational data by helping them transform their data into timely, valuable knowledge through effective analytics solutions that enable smart decision making.

"Our Business Intelligence solutions do not conform to a one-size-fits-all philosophy. We collaborate with a diverse array of technology partners such as BI360, Slipstream and Yellowfin to deliver the most appropriate solution for each of our client's unique business needs," concludes Dambuza.
