

Renewsys is part of the 55 year old , R 3.75 Bn “Enpee Group” .

The core competency of the Company lies in manufacturing. **Headquartered at Mumbai , Renewsys has a global presence with offices at Dubai, Johannesburg , Durban , Lagos , London , Mauritius & Singapore and representative offices in the USA and several countries in Europe.**

RenewSys is one of the few “**fully integrated companies**” in the world which manufactures **EVA, Back sheets, Solar Cells & Solar Modules under one roof**, thereby giving the Company full control over the entire process of manufacture.

“We have the best of experts in polymers & continuous research & development with state of the art equipment’s has made RenewSys a brand to reckon with & has been the **preferred component supplier** “ for around 150 module manufacturers in India and other parts of the world” **says Avinash Hiranandani, Managing Director.**

“Innovation, consistency in quality & customer satisfaction continues to be our focus area and in a short period of time we have been able to create a niche market for our wide range of modules” he added.

RenewSys has a full fledged R&D facility constantly innovating new products & is backed by testing facilities with the latest equipment’s. The modules of RenewSys confirm & exceed the exacting standards of IEC.

RenewSys has its manufacturing facilities at Bengaluru (for EVA & Backsheets) & at Hyderabad (for Solar cells & modules) in South India **backed up by world class equipment’s & technology from Europe.** The cell & module lines are driven by robotics and are easily comparable with the best in the world.

Within a short period of time RenewSys has expanded capacities **(EVA: 1.2 GW), Back sheets (1.8 GW), Cells (130 MW) & modules (180 MW). Further expansion of the module line by 100 MW is on the anvil in 2017-18.**

“RenewSys has been able to secure a place for itself in the renewable energy sector and has in this short duration earned accolades from its customers spread globally for its product range, quality, support & services “ **concluded Avinash Hiranandani, Managing Director**

Renewsys in South Africa :

Based out of Bedfordview in Johannesburg , RenewSys has warehouses ideally located in Cape Town, Durban, Johannesburg & Port Elizabeth that carry adequate stocks of its wide range of modules from 10 W to 320 W.

RenewSys modules have found acceptance in a short duration of time among various segments of users’ viz. EPC, OEM’s & a wide range of distributors’ network spread across South Africa & neighboring SADC countries.

RenewSys has supplied its modules for water pumping systems spread across 400 hectares of land in South Africa till date.

“Customer satisfaction , easy access & assured supplies at the most competitive pricing” has been the hall mark of Renewsys in South Africa as can be seen with the existing & growing clientele list.
