

## **Westcon-Comstor Southern Africa awarded Zebra Distributor of the Year FY16**

**JOHANNESBURG – 4 July, 2017** – [Westcon-Comstor Southern Africa](#), a value-added technology distributor of category-leading solutions in Security, Collaboration, Networking, Cloud and Data Centre, is delighted to announce that it has been awarded the Zebra Technologies' 2016 Distributor of the Year award for South Africa for the second year running.

"We are delighted to have received the award as top Zebra distributor in South Africa as it is an affirmation of the efforts we are undertaking in the region," says Kevin Norton, mobility solutions director at Westcon-Comstor Southern Africa. "Zebra is the leader in auto-identification technologies in today's high-growth data capture market, a market which is experiencing exponential growth as the technologies leading it continue to change in a growing big data market."

Today Zebra Technologies, a global leader in solutions and services that provide real-time visibility into organisations' assets, people and transactions, is a primary vendor within the Westcon-Comstor Southern Africa mobility solutions portfolio. According to Norton, the award is bestowed on partners, and in this case the distributor, who has been able to demonstrate outstanding commitment to the partner enablement and sales of Zebra Technologies solutions in the region.

Driving its specialist brand of value added distribution, the Westcon-Comstor specialist mobility team is able to assist local reseller partners and their customers with sector specific solutions that are uniquely tailored to individual business needs whether that business is in retail, transport and logistics, hospitality or healthcare.
