

## **Rand-Air Introduces The Efficient PTS 800 To Their Fleet**

Recent Research Reports Suggest That The Market For Oil-Free Compressors Will Increase By Leaps And Bounds In The Next Five Years. With Safety And Convenience Being A Concern For Most Companies, Especially Those In The Food Industries, The New PTS 800 Is A Welcomed Addition To The Oil-Free Compressor Offering.

Rand-Air, Market Leaders In The Rental Of Compressors And Generators, Is A Brand That Prides Itself On Keeping Abreast With The Technological Changes And Upgrades And The Introduction Of The PTS 800 To Their Fleet Is Testament To This. The PTS 800 Is The Latest Addition To The Company's Efficient Range Of Products, Delivering 100% Oil-Free Air With An ISO 8573-1 Accreditation.

There Are Industries Such As The Petrochemical And Refinery Industry Where Compressed Air Is Critical. By Hiring An Oil-Free Compressor, All Applications Ensure Clean, Reliable And Cost Effective Air Supply At All Times.

Previously, The Best Suitable Option For Clean Air Was The 1600 Cfm Oil-Free Compressor, Which For Smaller Project Requirements Is More Costly In Terms Of Rental Rate And Diesel Consumption. The New PTS800 Is The Ideal Solution For Customers Looking For Less Than 800 Cfm. Thanks To Its Compact And Lightweight Stature, It Is Easy To Transport And Install.

"The PTS 800 Is The Ideal Solution For Applications Which Require Oil-Free Air, As There Is No Trace Of Oil In The Air Produced, Certified By The ISO Class Zero Certification, The Unit Guarantees End Product Quality" Says Craig Swart, Fleet Manager At Rand-Air.

The PTS 800 Has An External Fuel Connector Which Enables Customers To Connect To An External Fuel Tank. Another Key Advantage Of This Unit Is That It Has Been Designed To Suit 24-Hour Operations, Enabling Businesses To Run The System 365 Days A Year Without Any Problems. At Rand-Air The 100% Safety And Oil-Free Guarantee Of The PTS800 Comes With A 24/7 Availability And A Fast, All-In Approach, Including All Accessories Needed For Setup. "Our Service Representatives Guide Customers From The Intake To Delivery, Set-Up And Maintenance."

"Renting Equipment From A Reliable Brand With An Outstanding Reputation And Good Understanding Of The Industry Is Highly Recommended To Ensure That Specific Needs Are Met As This Allows Businesses To Focus On Their Business Imperatives And The Business At Hand," Concludes Swart.
