

PRESS RELEASE

Inclledon Bloemfontein to be launched officially in the New Year

*18 December 2017: Inclledon Bloemfontein began operating in November 2017, and will be launched officially in January 2018. It will service the civil, irrigation, mining, and industrial markets in the key Free State area, according to Branch Manager **Conrad Wendelstadt**.*

With 19 years' experience in the pump and irrigation industry, Wendelstadt explains that his main focus will be to train and support new staff members, as well as pass on his extensive industry knowledge. "We have a great product basket to offer our customers, which we can confidently state includes some of the best brands on the market."

The main product ranges on offer at Inclledon Bloemfontein will be VAG valves for water and wastewater applications, Klamflex pipe couplings and flange adaptors, Cascade stainless steel pipe repair clamps, Esler Kent world class metering solutions and advanced technologies, DPI Plastics pipe and fittings, Pentax electrical submersible pumps, and Rigid pipe-working tools, to name but a few.

Inclledon Bloemfontein will be located at 256 OR Tambo Street in Hamilton, in the heart of the old industrial area. The premises are about 1 000 m² in total, with 450 m² of in-house, and the balance comprising yard space.

"Our aim will be to ensure we keep sufficient stock of the correct products for customers at all times. We offer great products at the best prices, combined with superlative customer support and service. We will focus on our core business, which is civil tenders, irrigation projects, mining and industrial and cross-border supplies. We also assist the DIY sector in terms of pump and irrigation systems," Wendelstadt concludes.

Ends
