

New Managing Principal appointed at GIBB Capital

GIBB Engineering and Architecture is excited to announce the appointment of Colin Logan as Managing Principal of GIBB Capital, its project preparation and advisory division that provides bespoke specialist services aimed at unlocking the financing and implementation of projects. Logan is a Civil Engineer with 17 years of experience in the planning, design and construction monitoring of water transfer schemes and power projects.

Logan joined GIBB in 2011 and since then, has operated in the roles of Divisional Head, Director and Acting General Manager for the company's Dams, Hydropower and Underground Works sector and the authorised representative for many joint venture partnerships at the company. He has been Project Manager and Project Director on several projects, both locally and internationally.

Group Business Development Executive, Muzi Siyaya, says "Logan has the experience and strategic insight in handling the GIBB Capital portfolio. With his specialist knowledge and experience in project economics and planning of multi-disciplinary engineering projects, we believe that he will leave an indelible mark through his work in this new role. Further to this, Logan has been tasked with developing the GIBB Capital model to align with the rapidly changing trends in infrastructure development."

Commenting on his appointment, Logan says, "I am grateful for the confidence my colleagues have in me to take on this role. There will be challenges along the way, but I am prepared to face them, grow the business, and ultimately affect positive change."

Logan graduated with BSc Engineering Degree from the University of Cape Town in 2001, is a registered Professional Engineer, and is currently completing his Executive Masters in Energy Management, which he is doing through the BI Norwegian Business School in Oslo and in partnership with the IFP School in Paris.
