
Federal-Mogul Motorparts to Showcase FP Diesel® Components for Commercial Engines at bauma CONEXPO Africa 2018

The FP Diesel® brand comprises high-quality and OE quality parts for off-highway and heavy-duty engines

Johannesburg, South Africa, March 12th, 2018. Federal-Mogul Motorparts, a leading global supplier of products and services to global manufacturers and servicers of vehicles and equipment in a range of sectors, will showcase its FP Diesel® range for heavy-duty construction machinery, materials-handling, and mining at bauma CONEXPO 2018. This includes diesel engine bearings, pistons, liners, and sealing products (CHG), in addition to Champion® and BERU®* industrial spark plugs and glow plugs.

During the show, FP Diesel will introduce new piston and cylinder liner kits for selected John Deere® PowerTech® engines. These popular four- and six-cylinder engines are used in a variety of John Deere agricultural and construction equipment, including the 6090 9.0L Cylinder Kit FP-DZ10211. The kits include pistons, liners, rings, pins, retainers, and sealing rings, everything required for an engine rebuild.

New ML7 head gaskets for John Deere 8.1L PowerTech engines will also be on display. ML7 is a highly-advanced, multi-layer-core gasket technology that offers significantly-enhanced combustion and fluid-sealing capabilities. Its combined heat and power (CHP) cogeneration and induction-hardened ID liner technologies will be on display, alongside a range of Champion industrial ignition products.

A section of the Federal-Mogul Motorparts stand will be dedicated to the new range of popular Perkins® engines, including the 1 000 series. The Perkins range from FP Diesel covers 120 part numbers, and offers pistons, rings, liners, bearings, and gaskets, some of which will be on display at the trade fair. These high-quality components come in unique packaging that offers SmartAuthentication™, a security feature that ensures product authenticity and quality.

“Federal-Mogul Motorparts’ aims to promote its extensive product range to both machine owners and end users at the trade fair,” said Frank Piojda, Director, Off-Highway/Heavy-Duty, Federal-Mogul Motorparts, EMEA. “bauma CONEXPO Africa provides the construction and mining industry in Africa with a professional platform for networking, investment, and the exchange of ideas and information. It has been established as the most important event for the sector in Africa.”

Visit Federal-Mogul Motorparts in Hall 6, Stand D32 at bauma CONEXPO Africa 2018 from 13 to 16 March 2018 at the Johannesburg Expo Centre. See <https://www.bcafrica.com/> for further information.

About Federal-Mogul

Federal-Mogul LLC is a leading global supplier of products and services to the world’s manufacturers and servicers of vehicles and equipment in the automotive, light, medium and heavy-duty commercial, marine, rail, aerospace, power generation and industrial markets. The company’s products and services enable improved fuel economy, reduced emissions and enhanced vehicle safety.

Federal-Mogul operates two independent business divisions, each with a chief executive officer reporting to Federal-Mogul’s Board of Directors.

Federal-Mogul Motorparts sells and distributes a broad portfolio of products through more than 20 of the world’s most recognized brands in the global vehicle aftermarket, while also serving original equipment vehicle manufacturers with products including braking, wipers and a range of chassis components. The company’s aftermarket brands include ANCO® wipers; Beck/Arnley® premium OE quality parts and fluids; BERU®* ignition systems; Champion® lighting, spark plugs, wipers and filters; Interfil® filters; AE®, Fel-Pro®, FP Diesel®, Goetze®, Glyco®, National®, Nüral®, Payen®, Sealed Power® and Speed-Pro® engine products; MOOG® chassis components; and Abex®, Ferodo®, Jurid® and Wagner® brake products and lighting.

Federal-Mogul Powertrain designs and manufactures original equipment powertrain components and systems protection products for automotive, heavy-duty, industrial and transport applications.

Federal-Mogul was founded in Detroit in 1899 and maintains its worldwide headquarters in Southfield, Michigan. The company employs nearly 53,000 in 24 countries. For more information, please visit www.FMmotorparts.com.
