

Business France – The French Trade Commission will once again be taking part in the African Utility Week trade show at the Cape Town International Conference Centre with a delegation of **10 innovative French companies** looking to showcase their expertise in the energy and water sectors, namely:

- **Ciel & Terre / Floating Solar:** Floating solar PV systems.
- **Chauvin Arnoux Energy:** Measurement, testing and network supervision equipment.
- **Codra:** Panorama Software Suite (SCADA).
- **EDF:** Electricity generation, networks, sales and trading.
- **Ensto Novexia:** Electrical solutions and services for smart grids.
- **Fonroche Lighting:** Solar street lighting solutions.
- **Infosec Communication:** Uninterruptible Power Supplies and surge protectors.
- **RS Isolsec:** Instrument transformers of up to 52kV.
- **Socomec:** Energy efficiency equipment for low voltage electrical networks and smart grids.
- **Up Welling:** Renewable energy water pumping technology.
